## GAMING ASSOCIATES TO REVIEW ABSOLUTE POKER ALLEGATIONS

Sydney, Australia 2007-10-19

The Kahnawá:ke Gaming Commission yesterday commissioned Gaming Associates to conduct a thorough investigation and audit into all circumstances relating to allegations of impropriety associated with the Absolute Poker system.

Gaming Associates is not prepared to go into any specifics at this time.

The Kahnawá:ke Gaming Commission demands very high standards of integrity and fairness pursuant to its regulations. All allegations and other theories are taken seriously and will be fully investigated.

Principal Consultant at Gaming Associates, Alan Pedley said, "Initial discussions with Absolute Poker management indicate it will be fully cooperative throughout the investigation. It is important for all stakeholders – the Commission in particular - that the facts of this matter are determined".

Gaming Associates is an interactive gaming and interactive wagering test and audit house accredited by jurisdictions worldwide. "I imagine we have been chosen for this activity because of our independence from operators", Dr Aftab Rizvi (Director of Gaming Associates) said. "Gaming Associates provides certification and audit services to legal government appointed regulatory authorities worldwide. We are not an operator funded, self appointed regulatory surrogate".

Alan added, "In addition to more than a decade experience in the regulated interactive gambling industries, Gaming Associates will be using acclaimed information security and forensic experts in this investigation".

Further enquiries should be forwarded to the Kahnawá:ke Gaming Commission [kgc@mck.ca](mailto:kgc@mck.ca).
